

## Model 258 HW

## Mechanical Register Non-Resettable

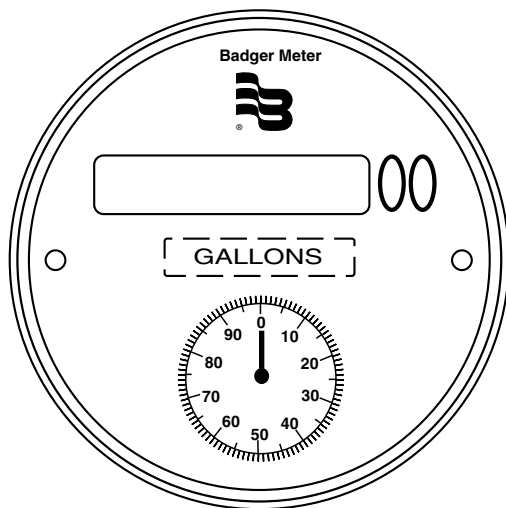

# Technical Brief

### GENERAL

Well proven basic totalizer used for inventory, and process control where totalization is the only functional need of the product, but the ability to calibrate the flow meter in the application is required. Also, applied to high fluid temperature applications.

### OPERATION

The model 258HW register is designed for metering liquids up to 250° degrees F. Units of measures are available in gallons, pounds, and liters for totalizing only. They can be used on all of our meter technologies.

### FEATURES

- Field Calibration
- Temperature - Can be used up to 250 degrees F.
- 6 digit non-resettable totalizer
- Weight: 3 lbs.
- Size: (register only) Front face diameter, 2 <sup>13</sup>/<sub>16</sub>", Height (thickness), 1 <sup>1</sup>/<sub>8</sub>"
